PRESIDENT'S MESSAGE

What a great month July was! The night fly was really a fun event. There were about 30 people who stayed to watch the sunset and eagerly awaited dark. By my count there were only eight flyers for the night but that was enough to light up the night sky. Some late arrivals said they could see the planes from I-80, how cool is that! I vote we do another night fly next year, so plan ahead and get a plane ready to fly. The dinner that Steve prepared was absolutely some of the best barbeque I have ever had. Most of us left around midnight so we could get some sleep before the open house on Saturday.

Saturday's open house was another outstanding success. The parking lot was full and the flight line was stacked with planes. We had quite a few first time visitors from the UFO group out of Provo. This is the bunch that just loves to fly combat with their flying wings. Burgers and Polish dogs topped the lunch menu. As is the usual routine for this group, people started leaving soon after lunch was over. Can't say I blame them because it was getting pretty warm by one o'clock. So, all and all everyone had a good time.

I want to thank everyone who helped at the work party and a special thanks to John Dunn for his tractor work. THANKS GUYS!!!!!!

August 10th FOX 13 news will be at the model port to help us promote our EXPO/WARBIRDS event on Saturday and Sunday Aug 15th and 16th. The club needs your support by attending these events. We will need planes for static display on Monday August 10th, setup starts at 5:30am with live feed starting at 6:00am. In addition we need pilots!!!!!! Big Budda has requested to see lots of planes in the air. So don't just bring hanger queens, bring something to fly. Glow, gas, or electric, if it flies bring it. Four or five slow sticks in the air at one time would be a good TV shot.

I have contacted the Parks Department and requested the field be cut and the rest room be cleaned by the 10th. To put the final touches on the field I am going to need some help doing a little weed whacking that the Parks Department usually doesn't get; let me know if you're willing to help.

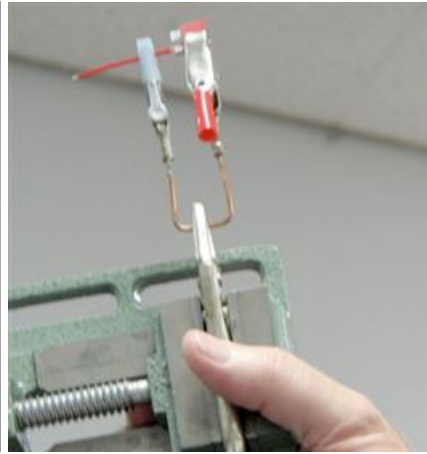

Thursday Aug 13th is our monthly meeting at 7pm. Please plan on attending so we can put the finishing touches on the Expo/Warbird event. Pat (SDH) will be giving a presentation on "All Things Electric".

Don't forget! We are going to **VOTE** on the updated and revised **CLUB BYLAWS** at the August meeting.

If you have not read the club Bylaws, rules and fee schedule please go to the club web site where you will find Draft copies of these documents (<http://uterc.org/node/443>). For those who cannot attend the August Club meeting we have attached a ballot you can use to cast your vote. Please mail your ballot via US mail or e-mail to me so that it arrives before Aug 13th. You can also give your ballot to any Club Officer prior to the aforementioned date.

JULY MEETING RECAP

- Brian Sorensen displayed his handmade paper-clip biplane
- Mike Passey showed his converted computer power supply which he uses to charge batteries
- Matt Barnson and Mike Passey discussed the foam wings available at www.extremewing.com
- Ken Gardner demoed his night-fly setup with accurate full-scale color usage
- Evan Higginson showed off his newly completed Super Sport and cradle
- Doug Dorton displayed his T-Rex 450 SEV2 and Glow Wire (available from Hobbico)
- Robert Clark discussed his solution for holding wires while soldering. The trick is to use some solid copper wire with a bit of springiness in it to keep the wires being soldered held tightly together. He also showed the use of silicone fuel tubing as padding over alligator clip teeth to protect the wire insulation.

OTHER UP-COMING EVENTS

- Desert Wings RC Club Annual 5 Star Fun Fly, Price Utah, 8 August 2009 8:00am to 1:00pm
RSVP - Paul Gabb (435)-820-4723 or paulgabb (at) desertwingsrc.com
- Ute RC Warbird Expo at the Jordan Modelport, 15 & 16 August 2009
- Float Fly and pot-luck at Lincoln Beach, Utah Lake, 12 September 2009 10:00am to 4:00pm
- SDH swap meet at the new Springville location, Sept 19, 8am to 1pm, free admission and lunch provided, bring your own table.

5 Gallon Pale or 55 Gallon Drum Super * Dri Brand Aviation Smoke Oil. A superior, professional smoke fluid which provides intense smoke and high persistence. Exceeds competitor's burn time, crystal clear, non-volatile, and easy to handle. May use electric pump for filling on-board tank. Will not attack foam.
