Safety Corner

What a turn out for the Freeze Fly!!! I hope everyone had a good time. I know I did. Thanks to all the people who brought chili. We really had a beautiful day to fly.

It turned out pretty good, but I should have had a pilot meeting ahead of time. Sorry about that. We had a couple of situations where non-members of the club were flying behind us. Although no one got hit, I had an airplane fly really close to my head. Next time I'll try to get all the pilots together for a briefing. There are some homeowners by Falcon Park that don't like airplanes flying around their homes. I told most of the club members not to fly towards the homes to the south and I think no one was bothered by it. I think there was plenty of room to fly to the north anyway.

As some of us are flying in the parks, please be vigilant and courteous to everyone who happens to walk through the areas we are flying. It seems that the parks are not used much right now, but when the weather starts to get warmer, I'm sure they'll be out in full force. It's been fun to fly in the parks for now, but maybe we'll have a model port to fly out of someday!!

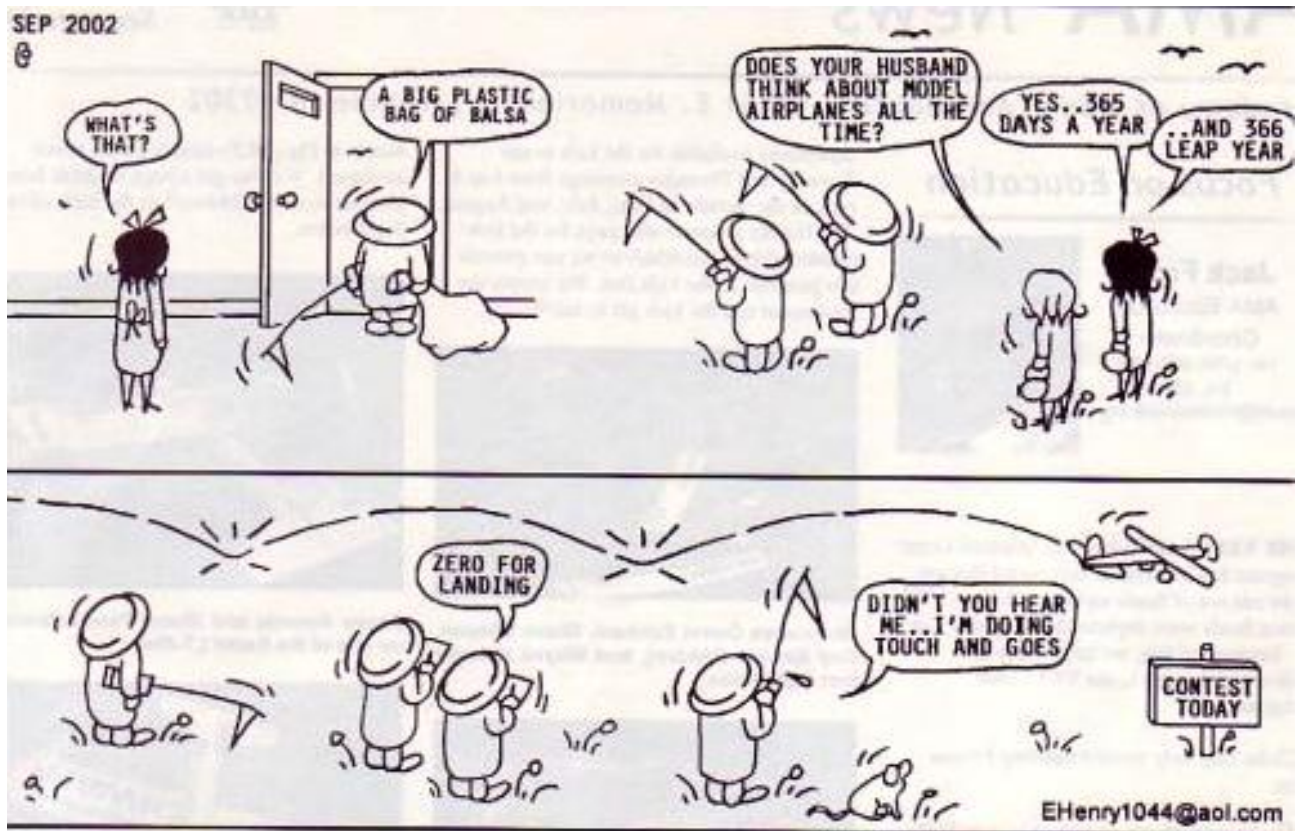

Please be careful in your shops this winter.

Remember "props like fingers". Be safe and have fun!!

Happy flying!!

Thanks,
John
